The place from Inverness offers 99 different **dishes and drinks on [the menu](#)** at an average price of £5. What [Jake Lloyd](#) likes about Comfort Food:

This is a sweet little café for breakfast in the city centre. The portions are quite large, so bring your appetite! The woman who served us was very knowledgeable. Basically they have g-f bread so that everything with bread can replace them. Really friendly, knowledgeable and solid good food! [read more](#). What [Stuart B](#) doesn't like about Comfort Food:

Food was average and the service good. However, they only accept cash and they added VAT after the event, at the till. Nowhere did it say the prices on the menu were without VAT. So it was a surprise that they added VAT tax when paying at the till. Something very dodgy going on here! Won't go back. [read more](#). The restaurant also offers the possibility to sit outside and have something in beautiful weather, And into the accessible rooms also come visitors with wheelchairs or physiological limitations. WLAN is available for free. In the morning, you can enjoy a diverse brunch at Comfort Food, freely at your own will, The visitors of the restaurant also consider the comprehensive variety of differing **coffee and tea specialities** that the establishment offers. As a rule, most *dishes are prepared in a short time for you* and served, and you may look forward to the tasty typical [seafood](#) cuisine.
