What [Andrew Owen](#) likes about Tupi:

We always enjoy the food here. We booked the table through OpenTable and the owner immediately called us to make us aware that the only table available was outside. We didn't mind but appreciated the call. Friendly service and always great food [read more](#). The restaurant and its premises are wheelchair accessible and thus usable with a wheelchair or physical limitations, Depending on the weather conditions, you can also sit outside and be served. What [User](#) doesn't like about Tupi:

although there were only two (clearly labeled) vegan meal options (pico de gallo toast and sweet potato burrito) both options were good! i had the toast which was great! and my mom had the burrito which she enjoyed as a non vegan! [read more](#). If you're hungry some **hot South American gastronomy**, you're in the right place: exquisite dishes, roasted with fish, sea creatures, and meat, but also corn, beans, and potatoes are on the menu,

Also, the visitors of the establishment love the large variety of various coffee and tea specialities that the establishment has to offer. In addition, there are fine American dishes, such as *burgers and grilled meat*, here they serve a comprehensive brunch for breakfast.
