What [\[\]](#) doesn't like about Tuck In: had to wait 20 minutes for a table, although I booked and showed up for the time. it was said to wait in bar area until the table became available. would have been nice if a free drink was offered to make for them about booking. only then when we went to another restaurant, we finally sat. [read more](#). During a meal, a good drink is essential. In this **gastropub**, you not only get delicious cuisine from the menu but also a comprehensive and particularly good selection of *good beers and other alcoholic beverages* that go well with the food, for breakfast they serve a **varied breakfast** here. They also offer easily digestible Mediterranean dishes on the menu, In addition to that, the visitors of the local can also consume typical meals from Turkey - from Sucuk to different Kebabs and even sticky-sweet desserts.
