+442072987552 - <https://www.benugo.com/restaurants/magazine>

On this site, you will find the **complete menu** of **The Magazine** from City of London, Westminster. Currently, there are **14** meals and drinks available. Featuring a diverse selection of small and large plates crafted by Chef Tomas Kolkus, our menu prioritizes sustainability and seasonality to deliver mouthwatering dishes while minimizing waste. Collaborating with Cooking Sections Climavore project, we create innovative dishes that adapt to the changing seasons brought on by the climate crisis. Nothing on our menu is farmed - all fish is line caught, herbs are hydroponically grown by Growing Underground in Clapham, and seaweed is sourced for its high nutritional value and zero irrigation requirements. Our selection of wines is served on tap, not only preserving freshness but also reducing environmental impact with recycled kegs as the only packaging. The story of our menu comes full circle with 100% recycled paper made from grass fibers at Frogmore Mill in Hemel Hempstead, using a mechanized paper making machine dating back to 1895. Join us from 10am for breakfast, with all day dining and drinks sure to satisfy any craving.
