I am here to buy local African food. the restaurant was packed, here is no social apart! I waited to make my order that took a while when they were busy. there were two employees there, one was really helpful and the other was not. eating is affordable and not to the usual extorted trips African restaurants fee for simple rice and stew I would go back there? the only reason I gave him four stars was the service. [read more](#). The restaurant offers free WiFi for its customers. What [User](#) doesn't like about Asafo:

from a busy crossing of brixton hill is this African restaurant. we could smell the food outside and it was pretty busy on a Sunday night. we sat down and began to look at the menu. to be honest, I think myself a food, but I really didn't know what the half of the ingredients were in the descriptions, even a short google helped me eventually went for banku and okro, which was a spicy kisser stew with okra cooked with...
