This place definitely has a bird infestation problem. When I sit at the tables outside I keep worrying about possible drops from above. Evidence of bird activity are also visible at the drive through gate. Other than that nothing to complain about. [read more](#). What [User](#) doesn't like about Kfc:

I'd recommend taking the drive through. The restaurant itself is not the most pleasant, seems quite dreary overall. The food is as expected most of the time however, it feels a bit sad for the prices of some of the meals. A decent offering but wouldn't have it as my first choice. [read more](#). Kfc from Dublin is known for its tasty burgers, to which **delicious fries, salads and other sides** are served, The guests of the restaurant also appreciate the comprehensive variety of various coffee and tea specialities that the establishment has to offer. One also grills South American here with fresh seafood, meat, as well as beans and potatoes, and you can indulge in fine American meals like *Burger or Barbecue*.
